Space Fact Cards

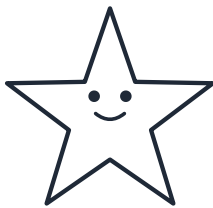

The Sun

The Sun is so big that one million Earths could fit inside it!

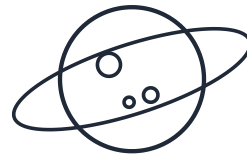

Our Moon

You could fit about 50 Moons inside the Earth.

The Stars

Some stars you see at night may have burned out long ago.

The Planets

Eight planets travel around our Sun — Saturn has the biggest rings.

✂ Color them, then cut along the dashes to keep or share

Design Your Own Planet

Give it rings, moons, swirls and colors — anything you imagine!
